● **HOBBIES AND INTERESTS**

Football, Art, Poetry, Books, Cooking, Languages, Numismatics

Since my childhood, I've always enjoyed reading books, especially fiction. My favourite one is Daniel Keyes's "Flowers For Algernon" this book is amazingly moving which is about life, time, and growth. Also I really like movies. Interstellar is at the top of my list. I have a keen interest in maths and informatics. Solving complex and tricky tasks boosts my confidence and happiness. I am also numismatist. I've got coins from over 25

countries since the 1950s. Sometimes I cook for my family, and when I make dinner or lunch the cooking process becomes an art. My top 3 most-liked cuisines are Tajik, Turkish, and Italian. Another hobby is intelligence games. We play some brainy games with my family. Scrabble is our favourite one. I also like football, cycling, and chess. Now travelling is not exactly my hobby yet, but I would love to go on a trip. The last one is writing poetry. I write some poems about the objects I have sympathy.
